ISSUE B

**METHVEN**  
[www.methven.com](http://www.methven.com)

**IMPORTANT:** Please read all of the instructions before installation.

### General:

- Methven recommends this product is installed by a licensed plumber in compliance with all relevant regional regulations.
- All pipe work must be thoroughly flushed prior to the installation of the mixer.
- After installation all connections must be checked for leaks.
- All outlets used primarily for personal hygiene shall deliver water at a safe temperature as per regional regulations.
- This mixer is not recommended for use in uncontrolled heating systems such as wet-backs or solar heating units unless a suitable tempering valve is fitted.
- If limited water flow is experienced, locate aerator and filter washers and clean away foreign material as required.
- It is the responsibility of the installer to ensure a waterproof seal is achieved between the product and mounting surface. If in doubt about the quality of the seal, remove the product and reinstall.

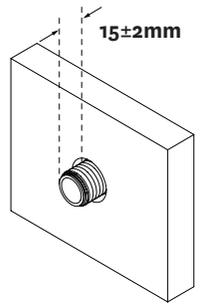

**IMPORTANT:** Before you begin, turn off the water supply.

### Installation:

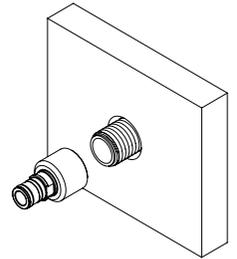

#### Step 1

- Cut outlet nipple to **15±2mm** from finished wall surface.

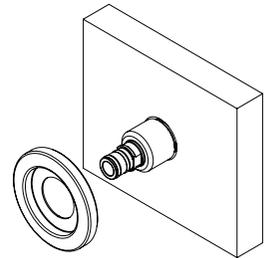

#### Step 2

- Screw spout adapter onto outlet nipple using plumber's tape to ensure a watertight seal.

#### Step 3

- Slide backing plate over adapter with plate notch positioned centrally towards the bottom. Silicone can be used to seal plate to the finished wall surface if desired.

#### Step 4

- Ensure spout O-ring is in place and push spout onto adapter. Tighten both hex screws to secure spout in place.
