Discovering SÒL

THE STORY

Sòl - the Norse goddess of the sun was honoured as a deity of protection and a healer who presided over thermal springs, which were thought to be warmed by the sun's energy and to possess magical, healing properties.

Bathing in a hot spring or bath has been integral to life, self-care and wellness for centuries. It is believed that both water and heat can clear the mind, detoxify the body, promote healing, and encourage relaxation and mindfulness.

Inspired by this legend, the apaiser design team created a collection of simple pieces which reflects the Nordic way of life and their practical approach to design. It seeks to compliment the art of living well, by embracing a simple home environment filled with quality items, unencumbered by clutter and embellishment.

The Sòl Collection embodies this principle of simplicity, functionality and minimal design to establish harmony with one's environment. This compact collection features clean lines and delicate curves suitable for small spaces.

The COLLECTION

The Sòl Collection also takes inspiration from one of our most popular, past designs. The original bath was unusually asymmetrical, perfectly proportioned and supremely comfortable, which made it a favourite of avid bathers. With a compact internal footprint, it also consumed less space and less water than many of our other signature baths. Though the design was archived, the key elements are still on point and the perfect blueprint for creating a compact collection of simple but refined pieces.

Reflecting the admiration, we have long held for this form, the apaiser design team embarked on a challenge, to reinvent the silhouette and revamp this bathing beauty.

Taking its cue from the original aesthetic, the curves have been elevated by subtle details and graceful lines, which play beautifully with light. Fine contours and understated tailoring elevate the design in this enduring collection. Compact, yet considerably crafted with absolute comfort in mind, this bath is the perfect place to bask in Sòl's glorious warmth.

The new Sòl collection comprises a freestanding bath, countertop basin, sleek single and double vanities, and complimentary table or stool. Each piece is a classic shape, but with apaiser's signature tailoring.

THE DESIGNER'S NOTES

The apaiser design team wanted to play with conflict, of sharp and soft, straight and curved, balance and imbalance, but finish with a visually restful and harmonious collection.

Whilst the collection might seem organic at first, the gentle curves gradually deviate to smooth, clean lines which lends a more distinctive quality to the pieces. By adding a soft angle and creating a definite band, they suddenly become simultaneously curved and angular. The collection will be appreciated by those who value originality, attention to detail, and are looking for a smaller collection with a simple yet sophisticated sensibility. It will appeal to both minimalists and traditionalists.

COLOUR NOTES

The contrast between hard and soft lines will pair best with colours that play with light and shade. Whites, greys, and dark colours with a subtle finish will highlight shadows and emphasise the elegance and restraint of this collection.

Sòl BATH

The Sòl Bath explores geometric asymmetry through the harmony of straight lines and delicate curves. Particularly suited to smaller spaces, the elegantly simple band around the rim subtly defines this compact bath. Experience a well-supported soak on the broader end, or immerse yourself in the perfect, snug, reclining position on the tapered side which also visually creates the illusion of floating in space and allows light to flow under and around its form, complimenting light filled spaces. Though small in footprint, the bath is deceptively comfortable and spacious.

Sòl OVAL BATH

The Sòl Oval Bath is an exploration of straight lines, fine edges and delicate curves, the stone bath is a celebration of proportion and symmetry. Though simple in form, the fine detailing elevate the ubiquitous oval shape, to create a stone bath that is universally appealing, and unique in equal measure.

Sòl BASIN

Understated in form, the charming Sòl basin celebrates fine details and everlasting style. The symmetrical shape is the perfect juxtaposition to the Sòl Bath or a superb accompaniment to our more minimalist apaiser baths.

Sòl VANITIES

The Sòl Vanity celebrates minimal lines, slender profiles, and practicality. It will be favoured for clutter free, seamless integration of basin and bench, singular materiality, and structural continuity. Available as a single or double, the Sòl Vanities can either float as a wall hung piece or be finished with complementary joinery.

Sòl BATH STOOL

The slight edge and gentle angles of the stool serve both form and function. Designed for use as a table or seat, it creates an interesting visual paired with the Sòl bath, and more symmetrical designs in the apaiser collections.

The perfect statement accessory.
