Light (φώς) and Shade (σκιά)

Cool shade is a precious commodity under the blazing sun of Greece. The Greek women know this, who have been assembling since generations, creating beautiful and meaningful things against the heat. And so with love and craftsmanship they represent our unique shade covers and accessories. Crocheted umbrella coverings and pergolas by „Ilektras Croshade“ give every home a cool Mediterranean flair. The yarn made of cotton and polyester comes from Thessaloniki and is elaborately finished with German eco-colours in order to be processed into individual pieces for our customers.

How it began

Sitting around idly with folded hands is not very popular in northern Greece because there is always something to do for people with nimble hands - which thereby makes talking to sisters, mothers, aunts or friends, much easier...
