## OSSERVARE. PROGETTARE. CREARE.

Progettare significa osservare, sviluppare un linguaggio e sintetizzare. È un percorso scandito da una serie di fasi di attenta ricerca, analisi e studio, dove l'ispirazione gioca un ruolo fondamentale. La sensibilità al quotidiano, coniugata alla metodologia, è fonte inesauribile di nuovi stimoli. La ricerca visiva del designer trova spazio nella natura e nelle cose che ci circondano giornalmente, con risultati progettuali sorprendenti. Horganica nella creazione dei propri lavabi (prodotti) prende ispirazione nelle forme e nella decorazione dalla natura e dagli oggetti tradizionali che ci circondano giornalmente, rendendoli funzionali e oggetti di arredo che possono andar bene in contesto moderno o rustico ma chic.

## TO OBSERVE. TO DESIGN. TO CREATE.

*To design means to observe, to develop a language and to summarize. It is a path marked by a series of stages of careful research, analysis and study, where inspiration plays a key role. The sensitivity towards daily life, combined with the methodology, is an inexhaustible source of new incitements. The visual research of the designer finds space in nature and in the things that surround us daily, with surprising project results.*

*Horganica in the creation of its products is inspired, in shapes and decoration, from the nature and the traditional objects that surround us daily, making them functional and furnishing objects that can fit in a modern or rustic but chic context.*

## OBSERVER. CONCEVOIR. CRÉER.

*Concevoir, c'est observer, développer un langage et synthétiser. C'est un chemin marqué par une série de minutieuses étapes de recherche, d'analyse et d'étude, où l'inspiration joue un rôle clé. La sensibilité à la vie quotidienne, combinée avec la méthodologie, est une source inépuisable de nouvelles incitations. La recherche visuelle du concepteur trouve un espace dans la nature et dans les choses qui nous entourent quotidiennement, en obtenant comme résultat des projets surprenants. Horganica dans la création de ses produits s'inspire, dans les formes et la décoration, de la nature et des objets traditionnels qui nous entourent tous les jours, les rendant des objets fonctionnels et d'ameublement qui peuvent s'intégrer dans un contexte moderne ou rustique mais chic.*
