

## HERITAGE OF CRAFTSMANSHIP

Established in Porto in 2008, Munna is a furniture design brand renowned for creating handmade upholstery with unmatched craftsmanship, seamlessly blending noble materials and timeless design, for both commercial and residential projects.

Made by hand in Porto, Munna's pieces honour the profound heritage of craftsmanship, while drawing inspiration from history's most influential artistic periods, using high quality fabrics such as velvet, leather and silk; the finest wood veneers, such as ebony, walnut and rosewood; sumptuous gold, silver and copper leaves, detailed plating in brass, nickel and copper, and superior lacquers.

Munna's designers and craftsmen are committed to delivering only highest standard upholstery, creating armchairs, sofas, stools and folding screens that never lose their power of amazement.

The brand's philosophy is to create meaningful design with lasting appeal, matched by signature exquisite finery. Munna has become an international reference in the creation of timeless design that infuse a higher form of living.

The new classics, by MUNNA.

## TESTIMONIALS AND QUOTES

*Retro-modern furniture | Furniture designers are drawing on a number of visual motifs from the past century to create elegant hybrids with contemporary originality and flair. (...) More immediately appealing were new works from Portuguese brand Munna – one of the highlights of Paris and an increasingly influential name, with its glamorous handcrafted furniture design that mixes a European contemporary upscale aesthetic with a number of 20th-century references. New designs included the Ferdinand sofa, with curvaceous pre-second world war appeal and a bit of 1970s disco thrown in, and the beautiful Empire folding screen, with overtones of the skyscraper architecture of the 1930s, as well as postmodern 20th-century design.*

**Financial Times's How to Spend It**

*This Babe armchair is too cool for school...so buy it for the home instead*

**Absolutely Magazine**

*The sumptuous Soft & Creamy from Portuguese company Munna, reflects the company's combination of traditional techniques and creative innovation.*

**Mocoloco**

*When we spotted this velvet chair from Munna we knew we'd discovered an exciting new shade of rose gold/copper that was going to be important.*

**Scarletopus.com**

*This new collection expresses Munna's vision of traditional production highly committed to quality and detail.*

**Infurma.es**

*Since its launch in 2008, the Portuguese design house MUNNA has created highly anticipated and timeless pieces. Their booth is expected to provoke an emotional and sensory experience with strong displays, so be sure to keep an eye on this budding producer.*

**World Interior Design Network**

*Colour continues to reign, Pastels deepened to blush and rouge bottle green*

**House and Gardens Australia**

*Porto-based Munna translates their visual metaphor of a city landscape into the Empire screen. World renowned for their handmade upholstery and inspired by the Art Deco period, the screen opens into four panels creating a three dimensional piece of sculpture. And if that is not all, the brightness of the golf leafing contrasts with the velvety texture of the fabric, which brings an allure to the room.*
