

OLIVER TREUTLEIN

IMPRESSION

VOL. 1

# The dream carpet

Every day, carpets are created for our customers in our manufacturing facility. Just like the way we make them, each of these carpets is truly unique. The majority of these hand-made one-offs are based on designs by our creativity team.

IMPRESSION COLLECTION

# VOL. 1

With this insight into our creative work, the 'Impression Collection', we'd like to give you an impression of the range of different designs we have the honour of manufacturing day in, day out. My wife and her team have picked out for you the team's favourite carpets from the last few months.

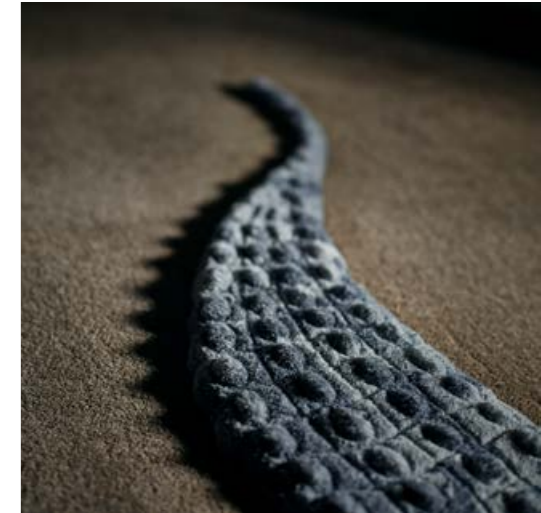

As anyone familiar with the way we work will know, it goes without saying that you can have any of these designs altered for your own purposes. You can ask us to make your carpet in any shape, colour, size etc. to fit in exactly with whatever it is you're planning. We'll be happy to advise you.

We hope you enjoy this opportunity to look over our shoulder while we work.

Yours  
Oliver Treutlein
